not too pet

not too pet

not too pet is an exclusive collection constituted by handcrafted creations, hand made in italy with the care of experts handcrafts using materials carefully selected.

Slight differences between one product and another of the same article, are considered normal characteristics due to the craftsmanship. Any imperfections in the leather and slight differences in color, emphasize the naturalness of the product itself. The beauty of a product made by leather is also given by its imperfections, however it needs to be treated with care, avoiding contact with fresh and salt water and avoiding prolonged exposure to sources of heat and saltiness. The metal accessories are subject to the same contraindications of the leather, an improper use may cause scratches and oxidation. Polish with a soft cloth and do not engrave the surface to avoid damaging the layer of galvanic protective finishing.

The **not too pet** concept technically guarantees the maximum comfort and gives elegance and exclusivity as a real fashion accessory.

not too pet is registered trademark.

All the rights on photographic materials are Reserved and the represented models are exclusive property of:

not too pet® luxury accessories for dogs made in italy

The constant research of innovative materials and the efficiency of the model in production, can sometimes lead to changes in what is shown in this catalogue, uniquely to improve the product.
